

Parichehr Talebzadeh

Product Designer

With 5 years of experience shipping end-to-end digital products across B2B platforms, consumer apps, and enterprise systems, I grew a Web3 platform significantly as sole designer, and built design systems spanning web, mobile, and dashboard environments.

EXPERIENCE

ONTON (Full-time)

Product Designer

Telegram Mini App for on-chain event verification

Remote (Finland)

Dec 2023 – Jun 2025

- Grew the platform from 87 to 1,500 daily active users (17×) and 30,000+ profiles as sole designer over 13 months.
- Reduced event creation flow time by 36% (3:34 → 2:17) through iterative testing informed by Metabase analytics.
- Built a scalable design system from scratch across 20+ user flows serving 2 user types.
- Owned end-to-end product design: research, wireframing, prototyping, high-fidelity UI, and developer handoff.
- Collaborated daily with engineers and marketing researchers distributed across 5 countries.

ChallenQuiz (Contract)

Product Designer

Gamified quiz app on Telegram

Remote (Finland)

Nov 2023 – May 2024

- Co-led the redesign of a gamified quiz app alongside one other designer over a 7-month engagement.
- Resolved a critical drop-off in the game initiation flow, contributing to a 2.7× increase in users completing at least one game (535 → 1,451).
- Restructured navigation, rebuilt the in-game experience, and introduced a personalised profile system.

Ezam Part (Full-time)

Product Designer

B2B auto parts ecosystem

Tehran

Nov 2022 – Jun 2023

- Designed an ecosystem as sole designer, unified under one shared design system.
- Launched consumer web platform live after crafting design, at ezamonline.com (*may be intermittently unreachable outside Iran due to network restrictions*).
- Delivered responsive layouts across desktop and mobile web following WCAG accessibility guidelines.

RDSysco, (Full-time)

Product Designer

WOW Global Solution, Enterprise ERP for oil & gas - client: EPFC Corp

Remote (Canada)

May 2021 – Sep 2022

- Authored reusable components, patterns, and edge case documentation for an enterprise design system spanning 10+ modules and 4+ user roles using Figma.
- Conducted 100+ stakeholder review sessions and produced 70+ interactive prototypes, with 90% approved on first review.
- Operated within Agile/Scrum ceremonies alongside 11 engineers and solution architects.
